

Horizontal Holder

Before getting anything else, get organised !

Mount equipment where it should be !

Constructed in 2 & 3 mm steel the SVAR Horizontal Computer Holder is strong and stable yet nearly invisible in use. It is designed to mount any equipment under desks or shelves in the most effective position. Self tapping screws mount the Holder under a horizontal surface.

To set equipment in place, the appropriate height and width is selected and locked by tightening the Allen screws with the Allen key provided.

Minimalist by design, pure simplicity to use.

RRP \$119.95
