

Remote TV Lifters

Press a hand held remote to bring the flat screen TV out of the panel work. Press again to return out of sight. A pleasing way to run the TV when needed and disappear when not needed. Ideal for screen protection & security.

Excellence for Private Home, Conference room, Board room, Large boat, Motor home, the list goes on.

Minimalist by design, pure simplicity to use.

Single Leg RRP \$1395.00

Twin Leg RRP \$1980.00

Specifications

Lift heights available range from 650 mm to 965 mm. Most sizes of Plasma or LCD screens can be remotely lifted out of a hidden position, rising to the desired viewing position. The largest remote lifter we have built to date was for a flat screen 1205 mm in width.

Manufacture

We custom build remote Flat Screen lifters to ensure correct operation for each location.

Linak electric actuators are used to provide smooth reliable raising and lowering motion. To quote on or begin making a lifter we need the exact screen mounting hole positions,

external screen dimensions, and the intended situation when both extended and

retracted.

Guarantee 12.97 Kb

SVAR Remote TV Lifter frames come with the Manufacturer's 10 year replacement guarantee on functionality. The Linak electric legs carry their Manufacturer's 3 year warranty.

Effective Options for Dynamic Workspaces !
